

Do not let the Bell "Wolves" own the chicken coop you already allow them to dominate. Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty. DO NOT DO IT. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of competition and the small businesses of our country-----The choice of who we as Americans want as our internet provider is just that !!!! OUR choice, Do not allow the other bigger companys to take away that right....just because a bigger company has more money and a larger "bandwith" does it nessesarly make them a better company. The choice is ours as a consumer....it is the same freedom of choice as it is in the choice of where you will eat....if you don't like a particular place what do you do?...you go somewhere else...it is your right and your freedom of CHOICE.....don't take that right of choice from the way that we, as consumers, choose our internet providers.
